

CENSUS TAKING WILL START MONDAY

Census Enumerator R. C. Caldwell Has Appointed a Number of Deputies for City and County.

The work of taking the census of Escambia county will commence tomorrow morning. Preparations for this important work have about been completed and a number of deputies have been appointed, though the Escambia enumerator has not yet completed his list.

Mr. Caldwell received his blanks and instructions recently, and stated last night that he expected to start his deputies out Monday. The census will be the most complete ever taken in Escambia county, and will include population, manufacturing and farming interests, railroads, telegraph, and everything that could be suggested for such a record.

The city inspectors so far appointed are J. O'Donovan, Mr. Wilkerson and Joe Jacoby, with one vacancy to be filled. It is probable that Messrs. Fillingim and Brewton will take the census of the country.

The questions to be asked those who are to be called upon by the enumerators are many, and it will require some time. First on the list will come the location. Under this are the street, number of house, number of dwelling house in order of visitation, number of family in order of visitation. The next is the name of each person, relation of each person to the head of the family, whites, negroes, other races, sex, date of birth, age at last birthday, whether single or married, widowed or divorced, number of years married, mother of how many children, number of children living, place of birth, place of birth of father, place of birth of mother, year of immigration to this country, number of years in the United States, number of years in this state, naturalization, occupation, education, ownership of home.

All of these questions are properly classified under these heads, and the sheet upon which these questions appear is twenty-one inches long. In addition to this there are important instructions to the enumerators, covering several pages of circular. The gist of these instructions, and those which most concern the public, is as follows:

Instructions to Enumerators.
"In gathering the information required to fill out the blank census forms sent you herewith, it must first be understood between the people who are to furnish it and yourself, that all matters or questions pertaining to the business are strictly confidential; that neither personal or family secrets, or the business affairs of individuals, firms or corporations will be divulged or exposed to the public.

"You will, therefore, permit no one to scrutinize or investigate your work, for any purpose, while in course of preparation by you, but this does not refer to persons in your employ. No employee should be permitted to make any statement whatever concerning it, for publication or otherwise, not even yourself.

"The information returned on the manufacturer's schedule should cover the business year of the establishment most nearly conforming to the year ending December 31, 1904.

"All answers will be held absolutely confidential. No publication will be made in the census reports disclosing the names or operations of individual establishments in any particular, and the information will be used only for the statistical purposes for which it was given.

"Amounts and values must be obtained from book accounts, if such accounts are available. Each question is to be answered. If any question is found not applicable, and no amounts are reported, write the word 'none.'"
"If a mercantile, mining, quarrying, or other business carried on in connection with manufacturing, the capital, employees, wages, expenses, products, etc., reported must pertain only to the manufacturing.

TO KILL THE DANDRUFF GERM
Is the Only Possible Way of Having an Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin, brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by W. A. D'Alemberte, druggist and apothecary, 121 S. Palafox street, Pensacola, Fla. TERSELY TOLD.

Julien W. Brown and Chas. C. McNeil, of Lake City, were here yesterday on business.

William Gerst, J. C. Vauple and J. Baker, of Nashville, are among the business visitors who are in the city today, registered at the Merchants.

During the severe thunder storm yesterday morning lightning struck the wharf of the Old Mill Inn, almost completely demolishing the structure.

Six defendants were before Recorder Loney in the municipal court yesterday morning. Of this number three defendants were discharged, one case continued, one defendant given a jail sentence of thirty days, and a fine of \$15 imposed upon the remaining one.

C. C. Nicholson, who has been in very ill health for more than a year, will leave Wednesday for his home in Denmark where he hopes to regain his health. He will go to Copenhagen, thence via Clyde line to New York, and from there by ocean steamer to Denmark.

The first cotton boll to open in this section has been sent to The Journal by B. E. Jones, of Highland, Fla., about 2 1/2 miles west of Molino. The boll was picked on July 18. Mr. Jones has a field of ten or twelve acres from which it was taken, which is doing exceptionally well. He says a cotton gin badly needed in that neighborhood.

A party composed of Dan Sullivan, Dr. Russell, Dr. Rinaldo, Dr. Allen, Geo. P. Wentworth and Judge James Wolfe, returned to the city yesterday, after having spent about two weeks fishing on Garner's bayou. They report excellent sport. The balance of the party remained in camp for a few more days.

Harry R. Smith, who has had charge of The Journal's circulation for several months past, has resigned his position and will leave at noon today for Chicago where he goes to visit his father. Mr. Smith has done some good work on The Journal and his association on the paper regret to see him leave. He is succeeded as circulation manager by Fred A. Sweet, who has previously done newspaper work in Pensacola but whose experience has been gained chiefly in the larger cities. Mr. Sweet enters upon his duties at the taking charge of the circulation department today.

AN ATTEMPTED

JAIL DELIVERY

By Associated Press.

New York, July 22.—A plot of 19 men to attempt to overpower a lone guard guarding them yesterday at Sing Sing prison and escape, failed by the lucky ambush by two other inmates who happened to be near. It is believed an attempt at escape was prevented.

of age. Follow carefully the special instructions relating to every column on separate sheet accompanying. This is important.
"Finally, you are most earnestly requested to exercise your best judgment and greatest care and be correct and thorough in your whole work. The whole work must be completed and returned by October 1, 1905."
The agricultural statistics are to be carefully prepared. This is to be an important feature of the census and is intended to show the exact condition of the state as a farming and stock-raising state. The questions to be asked in reference to this census are lengthy and will require even more time than to secure the facts for the census as to population.

MAX L. KAHN ON THE WHITE STORE TRAGEDY
Following is an extract from a letter just received by The Journal from Max L. Kahn, of Philadelphia, former manager of the John White store in this city:
Philadelphia, July 29, 1905.
The Pensacola Journal, Pensacola, Fla.:
Gentlemen—I beg to acknowledge receipt of your telegram informing me of the death of my life-long friend, John White, and the serious wounding of James White and Ed. Dansby. Accept my thanks for your thoughtfulness.
Nothing has ever happened during my existence that has so completely

unnerved me. I was associated with John White for twelve years and I am in a position to say that a better or more peaceable man never lived. I learned nothing but good from him, and always looked upon him as a father.
The only consolation I can offer myself is that had I been in Pensacola at the time I would have met a similar fate. My heart beats with sympathy for the widowed mother and children.
Williams applied to me for a position, I think it was about five years ago. His work and disposition was always satisfactory and he seemed to get along nicely with everybody. Mr. White always spoke favorably of him and why he should commit such a dastardly act is beyond my reasoning powers.
